LANGUAGES

- English (Upper-Intermediate)
- Burmese (Native)

SKILLS

Technical Skills

Data & Analytics: Python, Power BI, Microsoft Excel, SQL, MySQL

Web Development: JavaScript, HTML, CSS,PHP

Tools: Microsoft 365, Figma, Adobe Creative Suite, GitHub

Soft Skills

- Problem-Solving
- Good Communication
- Willingness to Learn
- Teamwork
- Adaptability

PROJECTS

E-commerce Sales & Product Performance Dashboard **2026**

- Cleaned, validated, and organized over 8,000 sales records using MySQL to improve data accuracy and consistency.
- Used SQL queries to analyze sales, profit, and performance across different product categories, regions, and customer segments.
- Developed Power BI dashboards to visualize key performance indicators (KPIs) and identify business trends. Presented data insights through visual reports to support business decision-making.

Hair Salon Booking & Management System **2026**

- Developed a responsive hair salon website with an online appointment booking system using HTML, CSS, JavaScript, and PHP.
- Designed and managed a MySQL database to store customer information, appointments, and administrator records.
- Built a secure admin dashboard to manage bookings, confirm or cancel appointments, and control administrator access.

AI Skin Analysis & Purchase Intention Research (Academic Research) **June 2026**

- Conducted a quantitative study using survey data from university students.
- Applied descriptive statistics, correlation, and multiple linear regression.
- Analyzed the effects of perceived usefulness and trust in AI recommendations on skincare purchase intention.
